Lake Belvadeere Access – grading/culvert improvements

Alliant Energy, TIP-Rural Electric Cooperative, Iowa Telecom, and Wapello Rural Water Association are relocating their facilities at various locations.

200th Street (immediately west of 240th Avenue) was closed to traffic on March 23, 2009 to begin work on a culvert crossing and grading activities.

242nd Avenue (200th Street north to campground entrance) was closed to traffic on March 11, 2009 to begin grading work. Park detours have been established and marked. Persons wishing access to the campground area are to use the park access road south of the Belvadeere Dam on 250th Avenue.

200th Street (240th Avenue to 242nd Avenue) was closed to traffic on March 6, 2009 to begin work on a new concrete box culvert crossing, as well as clearing and grubbing activities.

All other roads are open to traffic. However, temporary road closures may occur during the workday in order to move equipment, materials, etc. over the roadway. All landowners will have access to their property from at least one direction during construction activities.
