

NOTICE TO  
KEOKUK COUNTY DUST CONTROL PERMIT HOLDERS

The severe winter and wet spring weather have severely deteriorated the county's gravel roads. Our crews are working to reshape roads and apply rock as conditions permit. This reconstructive work is expected to continue into the summer months. Dust controlled areas may be disturbed. The county's dust control policy outlines the conditions, process, and obligations of this type of work. Please be aware of this when utilizing dust control this year.

A copy of the county's dust control policy can be obtained from the Keokuk County Engineer's office ((641) 622-2610) or by visiting [www.keokukcountyia.com](http://www.keokukcountyia.com).
